PEACE OF MIND

Whether you are interested in the health and safety of your customers, your employees, your students or your family, the **PROTECT98** can help you monitor the temperature of incoming individuals fast, efficiently and with no contact necessary. Paired with an existing access control or automatic entry solution, you can rest assured that your visitors and your staff are safe and assured of their fellow occupants.

FEATURES

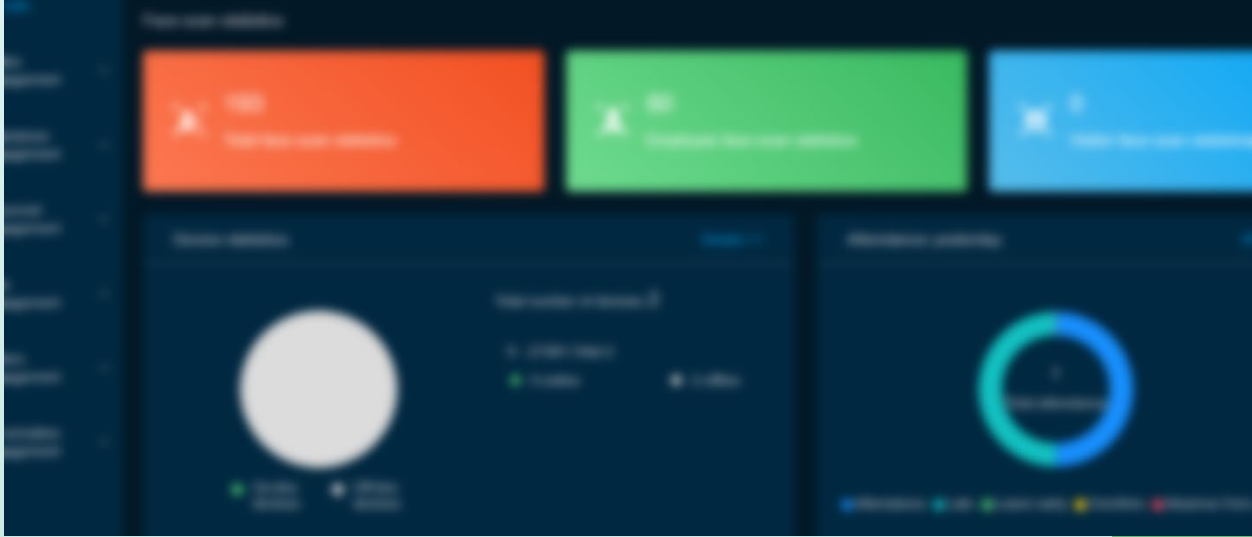

- Measure body temperature for an individual and give clear audible and visual indication of pass/fail.
- WiFi/Ethernet LAN.
- Auxiliary relay – selectable N.O. or N.C.
- Weigand 26/34 bit In/Out connection.
- Facial Recognition (30,000 individual database)

SPECIFICATIONS

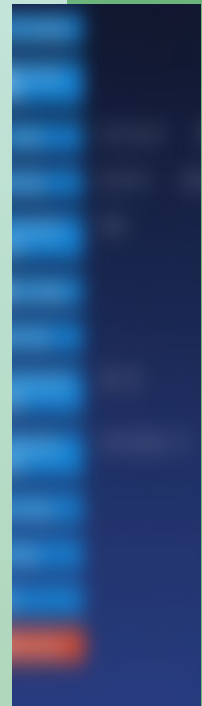

LCD	8" – 1280 x 800 pixels
Network	WiFi / Ethernet
Camera	2 MP Binocular camera
RS232	3-wire T/R/G
Temp Measure Distance	1.5' ~ 3'
Range	77 ~ 113 °F
Accuracy	≤ ± 0.35 °F
Normal Temp	Pass Relay Activation Facial Check
Fever Temp	Fail No Relay No Facial Check
Working Temp	32 ~ 140 °F
Warranty	1 Year

PROTECT98

- From simple and elegant to complex and dynamic, the **PROTECT98** platform meets the needs of today's environments. Combining stunning visuals with powerful capabilities, advanced customization options with solid reliability and integration levels from the simplicity of a stand-alone unit to the complexity of a fully managed solution.
- Multiple presentation options provide the flexibility to deploy where you want, when you want, while still maintaining versatility and visibility to your staff, your patrons and your guests.
- Ask your integration expert for more details and information on this exciting new platform to ensure your location is as safe as possible in today's challenging environments.

PROTECT98 Transit

Enclosed spaces transporting many individuals make buses one of the least safe places. The Protect98 Transit makes bus transportation safer. It identifies possible infections by scanning rapidly and accurately for high temperatures at the entry of the bus before infections can be spread to others - and at a place where the individuals can return home most easily.

The Protect98 Transit was designed for bus installation. Operating on bus standard 12 volts, and made of steel, the digital temperature display is large and bright. Audio announcement of results is clear and loud. Steel brackets are included for installation. Results are instant and accurate scanning forehead or wrist. The wrist scan is as accurate as forehead scanning, and has the advantage of accommodating individuals of different heights.

Product Features

- Quick screening
- Touchless measurement
- Voice announcements of results
- High brightness display
- Works on 12 volts
- Easy mounting

PROTECT98 Transit

Shipping weight	Approx. 2 pounds (1 kg)
Product weight	1.3 pounds (0.6 kg)
Power consumption	Less than 8 watts (0.7 amps)
Working temperature	14° - 104°F (-10° - 40°C)
Operating humidity	95%, non condensing
External power supply	AC 100 ~240v 50/60 Hz
Working voltage	12 Vdc
Temperature measurement speed	less than 1 second
Temperature accuracy	±1°F (± 0.3°C)
Measurement Distance	0.4" - 7.9" (1 - 20 cm)
Product size	6.54" h x 4.53" w x 1.43" d 166mm h x 115mm w x 34mm d
